

PRODUCT DATA SHEET

Carbonization Furnace for Graphite Sheets (PI Film)

Carbonization Furnace for Graphite Sheets (PI Film) is developed for controlled carbonization of polyimide-based films, graphite sheets, and graphite products.

OVERVIEW

Product Overview

The Carbonization Furnace for Graphite Sheets (PI Film) is developed for staged carbonization of polyimide-based films, graphite sheets, and graphite products. It supports process matching around loading size, atmosphere protection, heating rate and cooling strategy so that users can build a stable batch or continuous thermal route according to product structure and output rhythm.

For users working with fibers, felt, films or carbon preforms, the furnace can be matched to process rhythm, gas handling and working-zone dimensions while maintaining stable thermal ramping and practical maintenance access.

MANUFACTURER

Yuanhang Industrial Furnace

Customized Furnace Engineering

Supplier of customized vacuum, atmosphere, graphitization, carbonization, sintering, brazing and CVD equipment with configurable structure, hot-zone dimensions and automation packages.

TECHNICAL FEATURES

Technical Features

Supports staged carbonization with adjustable heating and atmosphere paths.

Suitable for felt, fiber, film and porous carbon precursor materials.

Configurable batch or continuous layouts according to production rhythm.

Designed for practical process stability, insulation efficiency and serviceability.

APPLICATIONS

Typical Applications

- polyimide-based films
- graphite sheets
- graphite products
- precursor carbonization
- carbon felt production

TECHNICAL DATA

Technical Data Tables

TABLE 1

参数项目	Parameter
工艺温度范围	400°C 至 950°C (连续可调)
废气处理系统	集成式焦油捕集器 + 尾气直排控制
Temperature Control Accuracy	±0.1°C (智能 PID 调节)
程序段数	30段曲线编程 (支持阶梯式升降温)
密封形式	Water Cooling密封, 防腐蚀密封材料
装料容积	50L / 200L / 500L / 1000L / 2000L (可选)

COMPANY PROFILE

Zhuzhou Yuanhang Industrial Furnace Technology Co., Ltd.

Manufacturer of High-Temperature Industrial Furnaces and Thermal Processing Equipment

Zhuzhou Yuanhang Industrial Furnace Technology Co., Ltd. (Yuanhang Industrial Furnace) is a manufacturing company based in China, Zhuzhou, Hunan, specializing in thermal processing equipment. Centered on heat treatment and high-temperature thermal engineering technologies, we provide customized equipment and complete process solutions for industrial and research applications.

With more than 10 years of dedicated industry experience, we have served over 100 customers. Our principal product portfolio covers graphitization furnaces, carbonization furnaces, vacuum sintering furnaces, silicon carbide sintering systems, CVD furnaces and related custom high-temperature process equipment.

Particular attention is given to practical automation. After the workpieces are loaded and the furnace door is closed, the programmed cycle can be started with one command, allowing the system to operate automatically through the defined process sequence. This helps improve repeatability and reduce dependence on operator experience.

For projects involving vacuum, ultra-high-temperature, brazing, carbonization, graphitization, sintering or CVD-related thermal processing equipment, Yuanhang Industrial Furnace can provide technical communication, configuration support and project-oriented engineering coordination.

- Graphitization and carbonization equipment for carbon materials, felt, carbon fiber and graphite products.
- Vacuum and atmosphere sintering systems for advanced ceramics, cemented carbide and refractory metals.

- Bottom-loading, multi-station and large-format CVD systems for demanding composite processing routes.
- Technical support for furnace selection, custom engineering, retrofit evaluation and process matching.
